PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with 6+ years of experience designing and delivering scalable web applications across diverse industries. Proficient in JavaScript ecosystems (React, Node.js, NestJS) and PHP frameworks (Laravel), with a strong command of both relational and NoSQL databases. Demonstrated success building production platforms including an e-commerce marketplace and a fintech utility-payment system. Currently contributing at NLPC PFA, building enterprise-grade solutions with a focus on performance, maintainability, and exceptional user experience. Skilled in AWS cloud services (EC2, Lambda, Amplify) and committed to clean, testable code.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Native (Expo & CLI), ElectronJs
Backend	Node.js, NestJS, PHP, Laravel, Express.js, REST APIs, GraphQL
Databases	MongoDB, PostgreSQL, MySQL, Redis
Cloud & DevOps	AWS (EC2, Lambda, Amplify), Git, GitHub, CI/CD Pipelines, Docker
Testing	Jest, Unit Testing, Integration Testing, Code Reviews
Design	Web Interface Design, Responsive Design, UI/UX Principles, Brand Consistency

WORK EXPERIENCE

Frontend Developer NLPC Pension Fund Administrators Lagos, Nigeria	Dec 2023 – Present
- Build and maintain reusable React component libraries, improving development velocity across teams. - Define and enforce scalable website architecture aligned with enterprise design standards. - Develop features that enhance user experience, driving higher engagement and retention metrics. - Optimize web applications for maximum speed and scalability using code-splitting, lazy loading, and CDN strategies. - Ensure full mobile responsiveness across all interfaces, maintaining brand consistency throughout. - Champion UX-driven design decisions, balancing functional requirements with aesthetic quality.	
Full Stack Engineer SMAHILE HUB Lagos, Nigeria	Oct 2025 – Feb 2026
- Developed and deployed full stack features using react on the frontend and Nests/Node.js on the backend. - Built and maintained RESTful APIs integrated with PostgreSQL databases for high-throughput operations. - Collaborated cross-functionally with product and design teams to ship product increments on schedule. - Implemented Laravel-based micro services to support legacy PHP systems, improving maintainability.	

Frontend Developer

Nov 2024 – Aug 2025

D1stclassheritage | Abuja, Nigeria

- Led frontend development of customer-facing web interfaces using React and Typescript.
- Established frontend coding standards and component patterns to ensure consistency across the codebase.
- Partnered with backend engineers to integrate RESTful APIs, improving data rendering performance.
- Delivered pixel-perfect, fully responsive UIs across mobile and desktop breakpoints.

Full Stack Developer

Jun 2023 – Nov 2023

CYBUD | Ibadan, Oyo State, Nigeria

- Developed and maintained full stack Typescript web applications using React, Node.js, and PostgreSQL.
- Designed and implemented scalable back-end systems and RESTful APIs serving thousands of concurrent users.
- Collaborated with product managers and designers to define project requirements, scope, and technical roadmaps.
- Conducted structured code reviews, enforcing best practices and reducing production bug rates.
- Optimized application performance through query tuning, caching, and efficient state management.

Full Stack Engineer

May 2023 – Jul 2023

Whites Technology | Ogbomosho, Oyo State, Nigeria

- Managed the end-to-end software development lifecycle from conception through deployment.
- Oversaw design, development, automated testing, and deployment of web applications.
- Maintained and upgraded software post-deployment, ensuring reliability and business continuity.
- Provided actionable development progress reports to management, facilitating informed decision-making.

Frontend Developer

May 2020 – Jan 2021

Comfort Developers & IT Solution | Oyo State, Nigeria

- Developed responsive web interfaces optimized for both desktop and mobile devices.
- Created reusable component libraries and defined scalable website structures for long-term maintainability.
- Maintained brand consistency across all digital touchpoints, supporting client identity guidelines.

KEY PROJECTS

Ecomega Hub

- Built a full-featured online marketplace for fashion and electronics using React, Node.js, and MongoDB.
- Implemented product search, cart management, payment gateway integration, and seller dashboards.

VtuNiche

- Developed a fintech platform providing affordable data, airtime, and utility payment services with a referral bonus system.
- Designed scalable backend APIs using NestJS and PostgreSQL to handle real-time transaction processing.

EDUCATION

B.Tech, Computer Science & Software Engineering

2018 – 2023

Ladoke Akintola University of Technology (LAUTECH) — Second Class Upper (2:1)
